

Public Notice

Proposed Issuance of Air Pollution Control Permit to Rexnord Corporation, Downers Grove

Rexnord Corporation has requested a federally enforceable state operating permit from the Illinois Environmental Protection Agency ("Illinois EPA") for their bearing manufacturing plant located at 2400 Curtis Street in Downers Grove. Rexnord Corporation currently has a state operating permit. The company voluntarily requested federally enforceable limitations that will require it to operate as a non-major source.

The Illinois EPA has reviewed the permit application and has concluded that the application complies with applicable state and federal air pollution control laws and rules, including the Illinois Environmental Protection Act, the Federal Clean Air Act, and Illinois' Rules for Air Pollution, 35 Ill. Adm. Code: Subtitle B.

The proposed permit limits the emission rates of the facility and requires Rexnord Corporation to comply with applicable state and federal regulations. The permit includes monitoring, record keeping and reporting requirements to demonstrate that control measures are being carried out. The proposed permit would enable these requirements to be enforced by the USEPA, as well as the Illinois EPA. These requirements will assure that the facility will be operated as a non-major source.

Persons wanting more information may review the Illinois EPA's project summary and draft permit and the permit application at the Illinois EPA's offices at 1701 First Ave, Maywood, IL and 1340 North Ninth St., Springfield. Copies of the documents will be made available upon request.

Comments are requested on the proposed issuance of this permit. Comments must be postmarked by midnight July 13, 1996. If sufficient interest is expressed in this permit, a hearing may be held. Requests for information, comments, and questions should be directed to Minesh Patel, Division of Air Pollution Control, Illinois Environmental Protection Agency, PO. Box 19506, Springfield, Illinois 62794-9506, phone 217/782-2113, TDD phone number 217/782-9143.
